DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by

Lach et al. It would appear that Lach anticipates the claimed invention. Lach teaches a belt 12, a rotating member 72 and the shirt worn by the user would appear to comprehend the friction liner. The shirt is adapted to be disposed between the belt and the chest of the user, it extends around the chest of the user, permits the belt to slide freely over the shirt, is made of low-friction material and is completely separate from the belt. Every limitation claimed is taught by Lach. It is not clear how the claims define over the shirt, roller and belt taught by Lach.
